

Rubber Factory Delayed Although Deal Is Considered A Certainty.

Unforeseen circumstances again delayed the organization of the McClurg Rubber Co., promoters of which met Friday afternoon in the offices of Attorney F. E. Pomerene to elect officers. However, Dr. H. R. McCurdy, who has been engineering the deal for the board of trade said Friday evening that another meeting will be held soon.

Deal a Certainty

Dr. McCurdy told a Tribune reporter that the deal was practically a certainty. "There may be some differences in the legal features of the transaction but I believe that these will be overcome without difficulty," said Dr. McCurdy.

The stockholders of the S. & M. Company have not officially consented to the merger but it is not anticipated that any difficulty will be experienced along this line. A meeting for this purpose will be held soon.

To Start Work Soon

J. S. McClurg and other interested parties were at the meeting Friday afternoon. As soon as the organization can be effected work will be commenced at the plant on Cambridge street. Some time ago it was announced that sufficient orders to keep the plant running for several months had been secured by the McClurg sales force which will be transferred to the local plant as soon as operations are commenced.

Mrs. Miller, Newcomers Woman, Dies

Following a serious operation in Grant hospital in Columbus recently, Mrs. Lewis Miller passed away at her home in Newcomers-town Thursday night. The deceased was one of eight children of the late Mr. and Mrs. John Wesley Lacey and is survived by the husband and four children. Three brothers also are left as follows: Thomas and Dent Lacey of Columbus and Oscar Lacey of Newcomers-town. Funeral arrangements have not yet been completed.

Squire and Ex-constable Cleared on Fraud Charge

A verdict for the defendant was returned by the jury in common pleas court Friday, in the \$1,000 damage case of C. H. Krampert vs. Edward Curran, Justice M. W. Wimmer et al. The case was heard in Judge Glenn's court the trial commencing Thursday afternoon.

Injuries Cause Death of Wm. Pickerel, Aged 94

In his ninety-fourth year, William Pickerel, a pioneer of Coshocton county, died at his home two miles west of Roscoe, at 9 o'clock Friday morning. Funeral services will be conducted by Rev. C. C. Irwin at the home Sunday afternoon at 1 o'clock and interment made in the family burying ground on the home farm.

Five months ago Mr. Pickerel met with an accident which injured his hip so that he has been confined to his bed since that time. Complications incident to advanced age were the final cause of his death.

Born in Fort Key county, Virginia, Mr. Pickerel came to Coshocton county when a young man. He settled on the farm west of Roscoe, cleared the land him-

WHEAT TAKES SLUMP OF 10c. Now Quoted at \$1.30 in the Local Market—Flour Also Falls Off 40c. on Bbl.

Both wheat and flour took a good-sized slump in the Coshocton market Friday. The former dropped 10 cents on the bushel and this morning is quoted \$1.30. The price of flour dropped from \$8.40 per barrel to \$8, which makes the retail price of the popular one-eighth bbl. sack an even \$1. Incidentally, local farmers who still have some wheat to market and failed to take advantage of the \$1.50 quotation in the hopes that the price would go higher, some even predicted \$2 wheat, are probably trying to look cheerful.

The local slump naturally followed what was termed some "panicky selling" on the Chicago board of trade Friday. The dispatches intimated that the "feverish unloading" was due principally to the reports that the allied fleet was about to force the Dardanelles, which would allow the huge supply of Russian wheat to find its way to and flood the world market. However, one local miller was of the opinion that the market was affected more by the fear that the United States would place an embargo on all shipments of wheat to Europe within the next week or two in the event that Great Britain and Germany refused to put an end to the blockading of European coasts to the detriment of all neutral commerce.

Everybody Selling

The following dispatch tells of the flurry in the Chicago market Friday:

Chicago, Feb. 26.—Selling that bordered on a panicky nature swept the wheat market down more than five cents a bushel today. The critical situation regarding the possible opening of the Dardanelles was chiefly responsible. May wheat sold as low as 148½¢ at the opening as against 153½¢ at the close last night.

July wheat dropped four cents. Support from those who believe that the straits are still a long way from being open to the shipment of grain was forthcoming at the decline. May sold up to 249½¢ and July, which has touched 121¼¢ advanced to 122 within the first ten minutes of trading.

Goes Up And Down.

Feverish unloading followed and the market soon smashed two cents below the undermost prices at the start, but rallied again with a rush, though not as strongly as before. On the second wave of selling May dropped to 146½¢, a fall of 7½¢ compared with last night. The extreme setback for July meanwhile was 4½¢ to 120½¢.

The crowd of brokers in the wheat pit was not so large as frequently is seen during a much less excited market. The rapidity of the transactions today, however, was at a rate seldom equalled.

July delivery finished three cents off for the day.

Mishap Victim Is Identified After 2 Weeks

Meeting death in a railroad accident at Staubenville on February 13, the remains of Wesley Devore, former Newcomers-town man have just been identified and were brought to his former home for interment Thursday night.

The victim was about 30 years of age and leaves no near relatives. Funeral services were held Friday and interment was made in Earley's church cemetery, just south of town.

Liquor License Scheme

New One Is Intro- duced in State Legislature.

Columbus, O., Feb. 26.—The state board of agriculture, the county prosecutors, the common pleas court and special juries are all cogs in a new liquor licensing machine proposed to the house of representatives, Friday, by Hake of Trumbull county. Mr. Hake sent in a bill, providing that saloon licenses be issued by juries of five members drawn from the jury wheel in each county; that the county prosecutors have the right to suspend or revoke licenses subject to the approval of the common pleas court; that the enforcement of saloon laws be left with a state liquor traffic inspector to be named by the state board of agriculture and to have at his service a number of inspectors, not exceeding ten.

Within Twenty Days.

The proposed jury commissions would have to issue all licenses within 20 days after taking their oath of office. They would be drawn during the first week in

High Army Officers to Visit Here

In connection with the "tag day" for the benefit of the local Salvation Army band, which will be held Saturday, March 6, special services are being planned at the Citadel on North Third street, March 6 and 7. These services will be in charge of Brig. David G. Dunham and his secretary, Adj. Thomas Hargreaves of Cincinnati. The local corps is looking forward to a delightful as well as profitable visit from the high district officials.

In addition to the special services, on Sunday, March 7, will be held a rally day service for the Sunday school. Last Sunday, the attendance at the Army Sunday school was the largest enjoyed during the past three years and it is hoped to further increase the attendance for the rally day.

Would Like Site for Factory Here

E. M. Conrad, formerly of this city and now the proprietor of the Flat Iron Garage and Machine Shop at Creston, O., has perfected an invention whereby inner tubes and air are to be eliminated from automobile tires. He has patented his invention which he expects to be a great boon to auto owners.

He has written to friends here asking them to boost the matter and see if it is not possible to secure a factory site in this city. "Coshocton is my former home and I would like to locate there again," says Mr. Conrad in a letter to Frank Klingler, of this city.

The matter may be taken up with the local board of trade.

Coil of Springs

The invention consists of an automatic expansion coil of springs to go inside of the outer casing and Mr. Conrad has been in communication with the Ashland Commercial Club with the intention of starting a factory for the manufacture of his new invention. The Club seemed to take a great interest in the proposition and Mr. Brown, secretary, was instructed to write Mr. Conrad and ascertain what inducements he desired. He says that he has several parties investigating his invention with the idea of forming a company. The Ashland Times published quite an article in regard to Mr. Conrad's invention recently.

FRENCH WAR VESSEL SUNK Loss of British Transport With 1800 Men Reported to Lloyds. Hard Fighting About Warsaw.

BERLIN, FEB. 26.—According to the German official news agency, the Italian newspaper Corriere Della Sera reports the receipt of a dispatch by Lloyds from Eastbourne, England, stating that a British transport carrying 1,800 men has been sunk, by a German submarine, with all on board.

Allies Claim Gains in West

PARIS, FEB. 26.—(By Henry Wood)—Further gains for the allies all along the battle front are reported in official dispatches today. German attacks upon the British at Labassee were repulsed with the British counter attack and a gain of 100 yards of trenches. The French captured several trenches in the Apremont forests.

Double Drive on Warsaw

BERLIN, FEB. 26.—Warsaw is now menaced by two German armies north of the Vistula. Official dispatches today say that one army is moving east within 14 miles of Warsaw. The right wing under Von Hindenburg is within 50 miles of the Polish capital and is steadily moving south. There has been a lull in the fighting in Poland for the last 24 hours, but a great battle is imminent to the north of Warsaw.

Petrograd Admits German Gains

PETROGRAD, FEB. 26.—By another rapid shift of his troops, Field Marshall von Hindenburg has massed a German army believed to number at least 350,000 men, on the front between the Bobr and Vistula rivers, and is making desperate attacks in an attempt to cut through the Russians there before the newly assumed offensive of Grand Duke Nicholas' troops west of Warsaw compels the retreat of the weakened German army there.

It was admitted here today that the Germans had made some gains at Przasnysz, but their mass attacks upon the Russian positions east there. East of Przasnysz the Germans attempted to cross the River Orzye at Krasnosielec, but they were mowed down by the Russian artillery on the east bank. The German objective in this region is Ostroleka, a fortress on the Narew river.

Northeast of Ostroleka the Germans are maintaining their attempts to approach Ossowiec and bring their heavy artillery to bear upon that fortress. This has resulted in desperate hand-to-hand fighting in Szczuczyn, Plochow, Wasosz and Bialoszewo. These towns have been practically destroyed.

Americans Are War-bound

LONDON, FEB. 26.—Successful operations of German submarines in British waters have resulted in the issuance of secret orders for all Transatlantic liners to remain in port until further notice, according to reliable information secured here. This news caused a sensation in maritime circles when it became known. Pending revocation of the order, no Americans can leave for the United States from English ports. Those wishing to return to America can do so only by going to France, and if they do this they risk their lives in the English channel.

Reckless Youth Let off Easy on Serious Charge

Jesse Walters, Newcomers-town youth, was fined \$5 and costs in Mayor Ulrich's court in Port Washington yesterday when he pleaded guilty to disorderly conduct. He is charged with having fired the shot which on Saturday night narrowly missed Mrs. J. W. Porcher as she was seated at a table in her home.

A charge of carrying concealed weapons and another charging him with shooting into a house still remain against Walters and trial has been set for March 6.

Gasoline Used for Coal Oil And Baltic Man Is Probably Fat- ally Burned.

Lewis Pershing, 35, prominent Baltic resident, and member of the firm of Pershing Bros., brick and tile manufacturers, lies in a serious condition at his home from burns received in a gasoline explosion Thursday morning. Mr. Pershing no doubt, owes his life to the prompt action of his ten-year-old son, who summoned neighbors who aided in extinguishing the flames.

Mr. Pershing is terribly burned about his hands and body. The flames did not touch his face. Although he has a chance to recover, he may be permanently crippled.

Wife In Hospital.

His wife is in a hospital at Magnetic Springs taking treatment for rheumatism.

The accident occurred in Mr. Pershing's new home. He had moved just the day before.

Early Thursday morning he prepared to build a fire in the kitchen stove. Two oil cans sat near by. One containing kerosene oil and the other gasoline. Desirous of making a quick fire, Mr. Pershing reached for the kerosene oil, instead he got the gasoline can.

Becomes Human Torch.

When he poured the liquid on the tiny blaze, there was a terrific explosion. Jets of flame were thrown all over the room. The gasoline was thrown over his clothing and in an instant he was a human torch.

His little son witnessed the explosion and thoroughly frightened he ran to a neighbor's home. When friends reached the Pershing home, they found Mr. Pershing valiantly fighting, a losing fight against the flames. By the use of rugs, the flames were extinguished.

The fire did not threaten the home.

Murray Met Death Under Fall of Rock

Verdict for Plaintiff in Hoffstatter Case

The jury in Judge Hanna's court Friday returned a verdict for the plaintiff for \$220.99 in the case of William Hoffstatter vs. George Hoffstatter, executor of the will of Elizabeth Hoffstatter, deceased. The plaintiff sued to collect for services performed during the last illness of Elizabeth Hoffstatter. The case was commenced Thursday afternoon and a number of witnesses were examined.

Attorneys Turner and Daugherty represented the plaintiff and the will of Elizabeth Hoffstatter, deceased. The plaintiff sued to collect for services performed during the last illness of Elizabeth Hoffstatter.

Receipts of Friday's Big Horse Sale Over \$15,000

Fair prices were brought at the single horse during the sale. A regular sale of the Coshocton fancy pair of roadsters was purchased by Charles McClain, of West Lafayette and Ross Kirk, local contractor, bought a matched pair of sorrels.

A total of 130 horses was sold for something over \$15,000, the sale having been the best of the season. Prices are generally somewhat lower than the prevailing standard of last year.

One draft horse belonging to A. J. Randles was sold for \$275 this being the highest price paid for a

JAMES SMITH

(Continued From Page 1.)

For twelve years Mr. Smith engaged in the mercantile business and was the senior member of the firm of J. L. Smith and Son. He then came to this city and was a member of the firm of Smith, Loller and Co. Several years later when his son, Ex-Mayor W. A. Smith was proprietor of a store in the Park hotel building, he had charge of the wall paper department. For ten years he had lived a retired life and for the past five years had made his home with his son Charles B. Smith where he was tenderly cared for.

When a boy, Mr. Smith joined the Methodist Episcopal church and had always been a consistent Christian. His entire life had been marked with industry, frugality and kind deeds. He was ever ready to help the afflicted and unfortunate and many lives have been made better by his exemplary Christian example.

W. A. Smith of Columbus had been spending the past several days with his father and was with him when the end came. In addition to the sons, W. A. and Charles B., one daughter, Mrs. Howard Miller of Main street and a brother A. L. Smith of Nellie survive.

Funeral services will be conducted from Grace M. E. church Saturday afternoon at 1 o'clock in charge of Dr. J. S. Seerest and burial made in Oak Ridge cemetery beside the wife who preceded him to the grave three years ago.

ENGLISH PRESS IS IMPATIENT

Wants Admiralty to Blockade German Coast.

London, Feb. 25.—Demand that the government declare an immediate blockade of the German coast was voiced by several London papers. They pointed out that the British public is daily becoming more exasperated over repeated attacks by German submarines in England's coast waters, and urged that there be no more delay in directing reprisals against Germany.

Comment on America's informal note was very guarded. The London papers generally did not receive the suggestion of a possible American supervision of Germany's imported foodstuffs with favor.

The government was urged to establish the blockade at once regardless of any pending negotiations with America regarding the food situation. The newspapers pointed out that nine steamers, six of them British, have been torpedoed since Germany established her "war zone" one week ago, and that the Kaiser was showing no disposition to remain inactive while the diplomatic exchanges were in progress.

"We prefer Germany to do her worst, knowing the worst to be quite bearable," said the Daily Mail, arguing that the government "politely refuse" the American suggestion.

While German submarine raiders have been attacking British shipping, British biplanes have been more active along the Belgian coast than had been supposed. This was indicated by the admiralty's admission that three of the aviators have been missing since the "recent" attacks upon Ostend and Zeebrugge, held by the Germans, and that one was forced to land on Holland soil.

BREAD PRICES DROP.
New York Bakers to Again Supply Five Cent Loaves.

New York, Feb. 25.—The wholesale price of bread, which was recently raised to 5 cents a loaf, is to be reduced to 4 cents, according to reports published. The fact that there was much agitation when the cost of bread was raised, followed by investigations into the bread industry, is one reason given in the report for the plan to restore the old prices. Another reason is that most of the smaller baking companies, instead of

following the lead of the big concerns, continued to sell bread at 5 cents to their retail trade.

The attorney general's inquiry into the increased cost of wheat and bread will be resumed Friday.

GROUND GIVES WAY.

Earthquake Changes Topography in Vicinity of Mount Lassen.

Redding, Cal., Feb. 25.—News was brought here of a severe earthquake in Twin valley, thirty miles east of here and twenty miles north of Lassen Peak. The ground cracked in all directions, and one house was tilted over five feet out of plumb by the sinking of the earth.

Large rocks have disappeared, while new springs have appeared. An acre of ground sank sixty feet. The snapping and roar of the earth's crust has been likened by residents to the roar of a heavy wind. It is not known here whether the mountain is now in eruption, as the peak is obscured by heavy rain clouds.

Jersey City Franchise Forfeited.

New York, Feb. 25.—President Darrow of the International league announced that he had forfeited the franchise of the Jersey City club, held jointly by William S. Devery and Tom Fogarty. This drastic action was taken because, it was alleged by the executive, the former ownership refused to meet contractual obligations, variously estimated at from \$7,500 to \$15,000. A stock company is now being formed to operate the "Skeeters."

Airman Kills Thirty Germans.

Amsterdam, Feb. 25.—Thirty German soldiers are reported to have been killed and fifty wounded in the bombardment of Knocke, Belgium, by a British aviator. According to information from Beebrugge the aviator dropped many bombs upon Knocke, some of which wrecked the tramway line. The aviator escaped, although fired upon many times.

Military Training in Schools.

Cincinnati, Feb. 25.—The introduction of militarism into the public schools of the United States would be "organized insanity," according to N. C. Schaeffer, state superintendent of public schools of Pennsylvania, before the department of superintendence of the National Education association. The entire program was devoted to discussion on this topic.

Investigate Shooting of Lawyer.

Youngstown, O., Feb. 25.—Police are trying to determine whether the wounds of Roscoe Winnagle, a lawyer of Warren, who was shot through the body, are self-inflicted. Winnagle was to have been given a preliminary hearing Saturday on a charge of blackmail. He says he was shot by an unknown woman.

Mitchell's Store Sale Is Proving Talk of Town

The wreck price sale which opened at Mitchell's old stand in the Park Hotel building by Sidney Rose is moving with such a bang and rush that it is the talk of the town. The sale opened yesterday morning and Mr. Rose wishes to express his regret for not being able to take care of the immense crowds that responded to his full page advertisement, as many people were turned away not being able to get waited upon the opening day.

The advertisement run Thursday contained the letter received by Mr. Rose from W. H. Bachert owner of the building, notifying him that he must vacate the room by April 1. The sale is being conducted by Messrs. Martin and Goldstand of Chicago, who are known from coast to coast. An extra force of salespeople has been employed and Mr. Rose says he will be able to take care of the crowds no matter how big they are.

REVIVAL CONTINUES AT CHURCH OF CHRIST

Another splendid audience was present at the Church of Christ last evening. Rev. C. M. Burkhardt and his assistant Rev. J. A. Canby were especially gratified because of the conversion of five young men.

The music last evening was especially good. In addition to the congregation singing, special musical numbers were rendered by a sextette of boys.

This evening will be the last appearance of the Rev. Mr. Canby. A great deal of the success of the meetings is attributed to his efforts. Their will be no service Saturday night, but the Rev. Burkhardt will continue the services Sunday evening. He said last evening, in all probability the revival will close Monday evening with a reception to the new members.

Mr. Burkhardt announces that a special thank-offering will be taken this evening.

LINER IN DISTRESS.

Mongolian, With 200 Passengers On Board, Is Afloat Off Cape Race.

New York, Feb. 26.—The steamer Mongolian of the Allen Line, bound from Philadelphia for Glasgow, Scotland, is in distress 400 miles off Cape Race, according to a message received here by Bowring & Company, steamship agents. The Mongolian was said to be calling for help and looking badly. The Red Cross has Stephano is about 416 miles from Halifax and is rushing to the assistance of the Mongolian.

A message to Bowring & Company, agents for the Stephano, from J. R. Bennett, acting premier of Newfoundland, said that the Mongolian had 200 passengers aboard. It was upon the premier's request that the Stephano was instructed to go to the Mongolian's assistance.

Business Men and Censor Act.

Columbus, Feb. 26.—Between 50 and 75 representative business men from the larger cities of the state are attending a conference here this afternoon to consider questions relative to the proposal to repeal the state motion picture censorship law. The meeting was called by the Cleveland, Cincinnati and Columbus chambers of commerce. The meeting will protest against repeal of the law.

All Texas Quarantined.

Austin, Tex., Feb. 26.—Governor Ferguson proclaimed a quarantine in Texas against the entire United States, the Dominion of Canada and the republic of Mexico, prohibiting the shipment of all kinds of live stock into Texas on account of the foot and mouth disease. It also prohibits importation of material that might carry the infection.

Two Injured by Cow.

Delaware, O., Feb. 26.—Mrs. John P. Eaton and her young son were attacked by an enraged cow, whose young calf had just been taken from her. When the boy entered the barn the animal butted him to the floor and then attacked the mother, who ran to his assistance, knocking her down and badly trampling her.

U. S. IS PLAYING "BIG BROTHER"

Brings Out Humanitarian Side in European Negotiations.

Washington, Feb. 26.—This government is playing the "big brother" role toward Germany and England, authorities announced. It was said the administration has a "stern accountability" in its negotiations with the two nations over their hunger warfare, and with the humanitarian idea as a basis has offered informal negotiations to halt the two.

It was added that America's commerce has been relegated to the background in the arguments by reason of England's veiled taunts in her last note that this nation is following a collar diplomacy.

One of the government's chief concerns was authoritatively reported to be a fear that the two nation's relations may know no bounds. Safety of prisoners in Europe's pens may be involved by the hunger war, officials held. Looming above this, the government is said to be worried lest starvation of Germany's civil population will react by arousing among Americans anger against England and her allies.

Neptune's Daughter, Beautiful Spectacular Photoplay and Film Marvel

All of the glowing newspaper reports relative to the merits of the country wide renown photoplay, Annette Kellerman in "Neptune's Daughter" have been verified by all those who witnessed this remarkable picture. It is truly a photographic marvel. Of course, this and that is claimed for the big features that are some events these pictures live up to their reputation and others do not, but the public is hard to fool, and being ever alert, and in a receptive mood to receive in open arms all arises above the plans of mediocrity, that is the reason for the wonderful popularity of Annette Kellerman in "Neptune's Daughter," which must be recognized today as the greatest of all film successes.

The scenic settings, whether on land or sea; the deftly drawn dramatic story, teeming with sincere heart interest, and above all the superhuman acting of Annette Kellerman, who tops the profession in her line; all combined to make "Neptune's Daughter" one of powerful appeal. It is at all times a living, vibrating story, and as a massive and expensive production, stands unexampled, having easily surpassed the record of "Quo Vadis," which was in its time, considered great. The difference in comparing the two opens one's eyes to the wonderful strides in motion picture photography and makes one speculate as to the future possibilities of this line of amusement. Mr. Dixon of the Columbus Equipment Co. was in the city yesterday trying out the Sixth Street Theatre's new machines. He pronounces them in the best possible condition.

Special music has been written for this film and will be played by an orchestra when shown March 2 and 3.

"THE GOVERNOR MAKER"

The Underella theatre will present one of the famous 101-Bison Universal features today entitled "The Governor Maker" in two parts. This picture is a powerful

drama of love and politics and Wm. Clifford and Marie Walecamp are playing the leading parts. The film is produced by Henry MacRae who is well known to Coshocton theatre goers. "The Crime of Thought" is another good one booked for today. "The Thief and the Chief" is one of Universal's best, although sounding funny they were related to each other. As usual on Saturday the Pathe Colored Film will be shown in one reel. This film is different from the ordinary motion pictures and is produced in natural colors. Monday is Alliance Feature day and Carlyle Blackwell the favorite will featured in "The Last Chapter."

"THE DEVIL'S EYE"

The Mystic is keeping up with the Saturday features and offer for today "The Devil's Eye" in four parts. Coshocton people remember "Black 13" and "The Battle in the Clouds" and this picture is said to be even better. The feature today shows Detective Hayes and is full of thrills and sensations from start to finish. Among the scenes is the jump from a high bridge into a barge passing on the river below; the slide on horseback down the face of a steep cliff, and the jump from a galloping horse into a motor car racing by.

ASKED FOR NAVAL CONVOY.

Tobacco Importers Fear to Make Annual Pilgrimage to Amsterdam.

New York, Feb. 26.—A committee of tobacco manufacturers, who usually go to Amsterdam every spring to buy at auction their supplies to Sumatra tobacco for six months, sent a letter to the department of state telling of their fears to travel through the war zone, and intimating that they would be glad if the authorities would send a battleship to convoy the vessel on which most of them would sail for Holland.

An answer from Counselor Lansing of the state department made public by the Leaf Tobacco Board of Trade, follows:

"You are informed that the department must, for the present, in view of the disturbed condition of affairs in Europe, leave it to each person contemplating a visit there to decide for himself whether or not it would be wiser to postpone his visit until affairs therein shall have resumed their normal state."

As they pay import duties of almost \$10,000,000 the manufacturers. It is stated, expected a different reply to their request for a convoy.

WHAT STRIKE COST.

Colorado Iron and Fuel Company Spent \$1,250,000 to Whip Union.

New York, Feb. 26.—J. P. Webber, president of the Colorado Fuel and Iron company, announced, following a meeting of the directors in this city, that the cost of the strike in the Colorado mine fields to the company was \$1,250,000, of which \$464,000 represented direct cost and the rest indirect cost due to the loss of business in the fuel department. Gross earnings in January were \$1,403,408, an increase of \$90,581, and after deduction of fixed charges the month's deficit was \$73,917.

It was also announced that George J. Gould, who had been a director of the company for almost fifteen years, and is a large stockholder, had resigned, owing to the fact he is on the boards of many railroads that buy fuel and other supplies from the Colorado company.

Three Pay Death Penalty.

Ossining, N. Y., Feb. 26.—Three slayers paid the death penalty in the electric chair at Sing Sing prison. They were Robert Kane, Oscar Vort and Vincenzo Campanelli. All had murdered women. The men went to their death without a tremor. Each received three shocks. Each left a letter urging the abolition of capital punishment, which will be used by Warden Osborne in his fight to that end.

Introduce New Taxation Bill

Columbus, O., Feb. 26.—Wholesale and abrupt changes in the taxation machinery all over the state have been decided on by the tacticians of the administration.

District assessors are to be ousted with their employees, taxation matters placed in the hands of county auditors, and tax assessors appointed by the county auditor to serve this year.

By Rep. Beidler.

Provision for all these changes is found in the taxation bill introduced by Representative Beidler of Hancock, but written by Peter W. Durr of Cincinnati, auditor and Republican leader of Hamilton county. The bill was reported out for passage today by the taxation committee, without a word changed and with only ten minutes' consideration. This precipitate action was taken following instructions from the office of Gov. Frank B. Willis.

Rips Out Machine.

The bill rips out of office all district tax assessor machinery, turns over to the auditor in each county the work of making the duplicate this year, empowers him to name all tax assessors, clerks, deputies and experts required, after the state tax commission has fixed the number of employees to

be maintained.

It is explained by the administration spokesmen that the provision to have the tax assessors appointed is only temporary. There is not time to complete the big taxation measure for operation this year. The Beidler bill is a temporary expedient to get administration tax appointees in power at once.

To Elect Assessors.

The right of the townships and wards to elect their own tax assessors, it is explained, is temporarily withheld, but it is to be given back to the voters in the big bill. The right to elect tax assessors was one of the loudest claims made in the campaign and is a part of the party pledges in the platform.

Tax experts have been heard by the taxation committee and everyone has declared the elective system of choosing tax assessors makes certain faulty work and inefficient service. Each expert says the appointive tax assessor is far superior to the elective—in point of getting values.

But the administration has turned a deaf ear, declaring the elective assessor was promised, and the promise is to be carried out in full. It is too late to make a shift, they declare.

Vorheis Measure Fixes Coal Rates

Columbus, Ohio, Feb. 26.—Aid to Ohio coal operators and miners is proposed in a bill introduced yesterday by Senator E. E. Vorheis of Guernsey County. It is claimed that railroads charge higher rates for carrying Ohio coal than they do for carrying West Virginia, Kentucky and Tennessee coal. It is proposed to establish maximum freight rates. The bill has the approval of Governor Frank B. Willis, who has shown a great interest in the efforts to further a settlement of the Eastern Ohio coal strike.

The rates as fixed in the bill are not to exceed, for hauls of 300 miles or more, 85 cents a ton; for 225 miles to 300 miles, 80 cents a ton; for 175 miles to 225, 75 cents a ton; for 135 to 175 miles, 70 cents; for 100 to 135 miles, 65 cents; for 75 to 100 miles, 60 cents; for 50 to 75 miles, 50 cents; for 35 to 50 miles, 40 cents; for

20 to 35 miles, 30 cents; for less than 30 miles, 25 cents. The State Public Utilities Commission is given authority to enforce the law and in case two carriers cannot agree upon a division of receipts the commission is to fix the schedule of division.

Alleged Yeggs Seized.

Zanesville, O., Feb. 26.—Three men were arrested here, accused of having robbed members of John H. Mills' family, near New Concord, Tuesday night. Those arrested are Ray Donovan, twenty-two; Harry Lutz and Lewis Owings. The latter two are former convicts.

Request of Jeff Davis.

Washington, Feb. 26.—Jeff Davis, founder of the Hotel de Gink, in New York, asked President Wilson to set aside the section of the public domain in Arizona for a farm de Gink for the unemployed. Later he discussed his project with officials of the department of the interior.

Start Bible Study Class

The first of the Y. W. C. A. Bible study classes was held in Carnegie library Friday afternoon and evening. Both meetings were marked with a good attendance and much interest.

Miss Ethel Woodbury, of Columbus, who has been engaged to take charge of the classes was present and was accompanied by Miss Grace, head of the Y. W. C. A. Bible study in Columbus.

Miss Grace gave a short talk to the women in the afternoon upon the importance of the classes and urged that the study be taken up by each individual with the idea of becoming a teacher herself. "Don't be a sponge," said Miss Grace, "for a sponge absorbs and absorbs but must be squeezed before it gives out anything. Get all you can from the Bible study but give out willingly to others all that you get. And what you get out of these lessons is going to depend entirely upon what you yourself put into them."

Miss Woodbury announced that the first series of ten lessons would be on Genesis and with the use of maps and charts gave an outline of what the lesson will be. She suggested that books especially prepared for the study of Genesis, by Miss Saxe, the Bible teacher with Billy Sunday's party, be used and a large number of the books were ordered.

There were about fifty present at each of the meetings. The afternoon meeting from 2:30 to 3:30 is for women and young girls who can find this time convenient and all who can are urged to enter this class. The evening meeting is for business women, high school girls and others who find it impossible to attend in the afternoon.

Miss Woodbury will conduct the classes each Friday. She is especially fitted for the work as she has conducted classes in Columbus for the last two years and spent much time previous to that in preparation for the work. Judging from her work at the opening classes, the coming ten weeks of Bible study promises to be intensely interesting.

It is not too late yet to join the classes and every woman in the city is invited to become a member.

friends here. They went first to the home of Mr. and Mrs. Howard McCain on Wilson avenue where they will be for a few days.

Mrs. Dole was Miss Mary Lacey, a former Coshocton young woman, and has hosts of friends in the city who will be interested in the news of her marriage and hasten to extend felicitations. She lived in Coshocton until two years ago when she moved with her family to Columbus.

The wedding of Mr. and Mrs. Dole was an unusually interesting event as it marked the silver wedding anniversary of the bridegroom's parents, and took place at their home. Miss Anna Huston, of Coshocton acted as bridesmaid and Mr. Dole was attended by Robert Ostot, of Columbus. Forty-five intimate friends and relatives were guests at the wedding.

Drug Fiend Appeals to President

Washington, Feb. 26.—A pathetic feature in the anti-narcotic law which will go into effect Monday is found in the letters daily received by the president and other governmental officials from dope fiends anxious to know where they will obtain further supply.

One letter is from a man who writes that he lost his leg by amputation and the wound healed in such a fashion as to expose on the surface the end of a nerve. Under the friction of his wooden leg he asserts the pain caused by this nerve is so excruciating that he is compelled to use narcotic copiously to ease his suffering.

The department of agriculture has issued an interesting list of 245 dope habitues in which it is demonstrated that physicians from the greater bulk of those addicted to the drug habit.

In this list of 245 there were seventy-one physicians who had the habit. Pharmacists came next with thirty-one taking drugs, and women of the underworld contributed eighteen to the list.

Brain workers and professional men numbered nine, trained nurses twelve, housewives eleven, while clergymen and lawyers tied with seven.

Wife Preferred Another Man.

Fremont, O., Feb. 26.—After August Wagner and his wife, each twenty-seven, had divided their savings, the woman left, with her husband's consent, with Sherman Hufford, twenty-six, whom she said she loved more than she did her husband. The woman leaves a little son with the father.

TAFT, THE REACTIONARY

Professor—or is it Dr.—Taft declared in a recent speech that "The initiative, referendum and recall are a complete negative of the system established by the Pilgrims and Puritans."

So is our abolition of the pillory, stocks and whipping post. There are a whole lot of things embraced in the "system established by the Puritans and Pilgrims" that have happily been dropped by the world in its onward progress.

As a matter of sober truth Mr. Taft did not state a fact when he made the above declaration. We still have the representative system of the Puritans in all its essentials and have greatly improved over the system they left. The initiative, referendum and recall came in the nick of time to save representative government in this country, and so later historians will record.

If Mr. Taft is acquainted with the most elementary facts of New England history he knows that the Puritans and Pilgrims burned people at the stake for witchcraft; that they regarded the expression, "religious tolerance" as meaning tolerance only of the religion they espoused; that they banished high minded Baptists, persecuted pure minded Quakers and were ready to murder those who took issue with them in the most unimportant details of life.

These are parts of the "system established by the Puritans and Pilgrims," but Mr. Taft does not say anything against their abolition. The truth is the Puritans and Pilgrims were, like us, human. They had many great and noble qualities and they have left their impress on the civilization of the United States for all time.

They also had many undesirable traits and the sooner these are eliminated from our national character the better for us and our posterity. Mr. Taft is a hopeless reactionary, although an estimable gentleman in many respects. A certain little event that transpired in November, two years ago, evidently still rankles in his manly bosom and he never wastes an opportunity to take a rap at anything that smacks of social progress.

THE NEW DRUG ACT

The new federal drug act which goes into effect Monday is in many respects a radical act. It really amounts to a prohibition of the use of deleterious drugs in this country and the law is explicit in its instructions to those to whom it entrusts their distribution.

This law, says The Dayton News, provides that every dentist, physician, veterinarian, and druggist must register with the collector of internal revenue in which he is located. He must account for all of the poison or poisonous drugs dispensed, and for every ounce of so-called "dope" that is handled.

A druggist, for instance, purchases a pound of opium. The collector of internal revenue is notified. At the end of a year, or whenever the collector calls for the data, the druggist must furnish a detailed list of the persons to whom the drug was sold. If it is sold upon prescription, the prescriptions must be on file, and the total amount of the drug as called for by the prescriptions must "check up" with that on hand. In other words, all of the drug handled by the druggist or physician must be accounted for at any time he is called upon to account for it.

Another radical feature of the law is that the druggist must recognize the handwriting of the physician giving the prescription. It is not sufficient that the druggist have a prescription calling for so much poison; he must be able to testify that the prescription is genuine, and was written by the physician whose name is attached

SPEEDING ALONG

By WALT MASON

But yesterday I celebrated the advent of the glad new year (for which I watchfully had waited) and wore a smile from ear to ear. And now the alarm clock informs me the year's already six weeks gone, and soon this overcoat that warms me I shall be privileged to pawn. Oh, Time, when all the rest are tooling, and loafing through the golden days, along the highway you go tooling your tallyho and spectral bays. When all the rest are sweetly snoring, and human toil has known a slump, your wagon wheels go tipping, roaring, down, down to the eternal dump. We mortals labor in the daytime, a few brief hours, and then repose; we feel we ought to have our playtime, and see the moving picture shows. There is a lull in our endeavor, whenever we can find excuse, but you, oh, Time, rush on forever, rush on, like blitzen broken loose. You make us old, before we know it, impartially you snare us all; the priest, the plumber and the poet—from all of them you take a fall. Rest, Father Time, slow up your paces—you need a holiday quite bad—and you will please all tribes and races from Petroburg to Edingrad.

to it. Dentists who use poisonous drugs or anesthetics are required to account for everything purchased in that line—in fact, the law is very drastic and will be enforced by the government. So it will be well for the persons interested in the enforcement of the law to get into touch with the revenue officers at once and be prepared to obey the law.

PEOPLES' FORUM

A REAL LINCOLN BIRTHDAY CELEBRATION.

All over the country last week, there were banquets and speech-making in celebration of the anniversary of Abraham Lincoln's birthday.

Most of these affairs were partisan for Lincoln's birthday is the event seized upon by the Republicans for their annual party hurrah celebration. Mr. Lincoln, if alive, could hardly enjoy seeing his birthday used as an opportunity for reiterating to party followers, the necessity of voting the party ticket straight.

We can imagine nothing farther from Mr. Lincoln's simple, homely, honest Democratic Republicanism than the dollar-a-plate banquets held annually in his "honor." Here is something different. At Wells, Minn., there was held a Lincoln day celebration, which really honored Lincoln's memory. The people of Wells and vicinity, gathered at the city hall, and fittingly recalled the life and works of that great American patriot, who lived and died for the Common People. They passed resolutions in doing these things.

Public ownership of all public utilities, Government ownership and operation of all railways and telegraph lines; State-owned elevators to permit the farmers to handle and realize upon their own grains instead of turning them over to the grain gamblers.

This Lincoln's birthday at Wells, we think is the finest Lincoln's birthday since that first one in the little log cabin in the woods of Kentucky, when the mother eyes first saw the baby, who was to redeem half a nation from bondage.

TAX LISTING DAY

Comes on April 3rd of this year. Should you have funds for which you desire a tax free investment, prior to that time, we should be glad to confer with you concerning Tax Exempt Ohio Municipal Bonds, yielding an income attractive to the conservative investor. Notwithstanding the violent market fluctuations of other classes of investments at times during the past year, choice municipals were salable at all times.

ment today requested \$215,000, 000 additional for the war expenses of the year 1914-15, bringing the total for the year to \$1,810,000,000. The estimates for the year 1915-16 provide for an expenditure of \$1,250,000,000. The total for the first two years of the war for England alone is \$3,060,000,000.

Death Closes War Plea.

Milan, Italy, Feb. 26.—Ignor Mosi-Trotti, a radical deputy, died suddenly today while he was delivering a speech in favor of the intervention of Italy in the war. He was addressing a crowd in a theatre, and as he was reaching the climax of his speech, pitched forward dead.

Carib Lost Three.

Berlin, Feb. 26.—Three members of the crew of the American steamer Carib, were lost when the vessel was sunk in the North sea, according to advices received here today. It is now understood that the Carib was lost off Bornholm Island, near the spot where the Evelyn also went down.

French Warship Sunk

Paris, Feb. 26.—Official announcement was made here that the French destroyer Dague, a vessel of 720 tons, was sunk by an Austrian mine in the Montenegrin port of Antivari Wednesday night. Thirty-eight men went down with the Dague.

The following statement was issued at the French ministry of marine: "The French torpedo boat Dague, while conveying provisions for Montenegrins, struck an Austrian mine in the port of Antivari at 9:30 o'clock Wednesday night and sank. Thirty-eight men of her crew disappeared with her."

"The accident did not prevent the successful termination of the provisioning operations and the normal re-

More Ships Disabled?

Berlin, Feb. 26.—The Cologne Gazette has published a letter received in Germany from Montevideo, Uruguay, in which it is declared that seven British cruisers are lying at the Falkland Islands, in the southern Atlantic, severely damaged. This information has been brought to Montevideo the letter says, by the officers of an Argentine steamer.

Needs More Money.

London, Feb. 26.—The govern-

ment today requested \$215,000, 000 additional for the war expenses of the year 1914-15, bringing the total for the year to \$1,810,000,000. The estimates for the year 1915-16 provide for an expenditure of \$1,250,000,000. The total for the first two years of the war for England alone is \$3,060,000,000.

"ON TO CONSTANTINOPLE."

is Latest Slogan Adopted by English War Experts.

London, Feb. 26.—"On to Constantinople" is the slogan of the British naval experts as a result of the official announcement made by the admiralty that the outer forts of the Dardanelles had been reduced by the Anglo-French fleet. They admit, however, that the allied fleet still faces a most formidable task.

The forts put out of action are two on the northern, or European side, of the Dardanelles, and one on the Asiatic side. The rest of the Dardanelles is lined on both sides by other forts and defensive works. Mine fields have been laid by the Turks all along the Dardanelles and in the Sea of Marmora.

It probably will take several months for the French and British warships to force the entire passage of the Dardanelles, but naval experts in London declare that the opening success of the warships presages the capture of Constantinople.

HOLLAND RESTLESS.

Believed Little Kingdom Ready to Join the Allies.

London, Feb. 26.—Rates of insurance against Holland's participation in the war took a sudden jump. This was due to semi-official reports here that the Dutch government is planning for war with Germany and that the Germans are making preparations for an aggressive offensive against Holland as soon as it joins the allies.

Announcement was made that no persons can leave England for Holland without first securing a permit at the home office. To get such a permit all applicants must give satisfactory proof of their purpose and furnish references.

A Morning's Mail at the Ford

Each succeeding morning-mail is breaking records these days in the sales department of the Ford Motor Company. Amazing figures even for the Ford, are becoming positively incredible figures. For example, here is a portion of one morning's mail: Hood & Snyder of Jewell, Iowa, ask that a train-load of Fords be shipped as soon as possible; the Bepass Auto Company of Waterloo, Iowa, want a train-load of Fords at once; the Brownell Auto Co., Birmingham, Ala., ask immediate shipment of train-load of Runabout cars; the Herring Motor Company of Des Moines, Iowa, insist that 1000 Fords be shipped immediately; William Warnock & Company of Sioux City, Iowa, write for 1500, "or more if we can have them"; the Becker Auto Company of Grand Rapids, Mich., ask for a modest 700 cars immediately.

With such mail, day after day, as this, it is small wonder that the 300,000 car production has become a well established certainty. C. W. Loose and Sons, are local agents in Coshocton County.

Believes Victor Will Attack U. S. After War

Washington, Feb. 24.—The general board of which Admiral Dewey is chairman has before it an expert view of the relations of the United States to the European belligerents in which it is pointed out that immediately after the present war this country may expect either Germany or England to proceed against it, with Cuba as a base of operations.

The view was written by Capt. Charles F. Hughes, also a member of the general naval board and chief of staff of Admiral Fletcher, and is understood to represent the views of all the high officers of the Atlantic fleet now at Guantanamo.

The conclusion of this review and its inspiration are not predicted on the current diplomatic differences between the United States and Germany or between the United States and Great Britain.

A member of the naval board, who with others has been studying this exposition of existing events of the near future, said:

"There is a great deal of justification for the warning before us. Capt. Hughes points out clearly that the European war is one which grew out of the commercial ambition of England and Germany.

"He tells us we should read history and see that England, first by reason of her commercial ambitions, disposed of the supremacy of Holland. Then later she disposed of Spain and in the present instance has set out to dispose of Germany. In the same way the latter country was known to be seeking commercial expansion and it was this knowledge on the part of England that made it necessary for her to counter against Germany.

"The United States, Capt. Hughes points out, built the Panama canal, of course, for the same purpose of commercial expansion, and it behooves the United States to be able always to maintain that as a naval base and the radiating point for her commerce with the world. In order to do this there must be a navy sufficient to hold it.

"In the opinion of Capt. Hughes the United States must look to a settlement of the question of commercial supremacy immediately after the European war. The struggle will begin, he says, even before the victor disarms.

"The plan of campaign, whoever shall be victor, will be to establish a base of operation against the United States, either in Porto Rico or Cuba. He points out that neither England nor Germany would be successfully charged or perhaps be chargeable, with violating neutrality for the reason that Cuba generally is considered a protectorate of the United States.

"With Cuba as a base, Capt. Hughes thinks the next point of attack would be the Panama canal.

"Capt. Hughes expressed the opinion, however, that the Panama canal could not be taken at this

time by any power.

"He believes that with a superior fleet operating against that of the United States there will be no difficulty on the part of the aggressor in landing even so small a number as 250,000 men on the coast of the United States, with which number the sea coast and adjacent territory could be harried indefinitely.

"Capt. Hughes discussed also the probable operations in the east. He says point blank that at the very first blush of war the United States would lose the Philippines but that we might hold on for some time to Hawaii.

"The conclusion of the review is that the United States might be called upon to face the situation he outlines at an early day. Capt. Hughes makes a strong plea for specific attention to the naval needs and he throws out the alarming suggestion that it might be too late even now to do what should have been done long ago."

Says Turks Won't Harm Christians

New York, Feb. 24.—Harvey Porter, a professor in the Syrian Protestant college at Beirut for the past forty-four years, was a passenger on the Finland, which arrived today. Prof. Porter said Christians in the vicinity of Beirut were safe unless the government should be overthrown.

Bruno Von Brezezieka, his wife and daughter, former residents of Lemberg, were passengers, on their way to China by way of San Francisco.

Mr. Brezezieka said that before the war he was wealthy. The frequent battles in and around the city between Russia and Austrian armies had destroyed the bulk of his property he said.

His oldest son, a surgeon, who was forced, he said, to join the Austrian army early in the war, had been captured by the Russians and sent to Siberia. He escaped, however, and is in China waiting the arrival of his parents.

The Finland was boarded after leaving Naples, and Italian army officers took from the ship fourteen stowaways, five waiters and eight firemen, all of whom were Italians, eligible for army duty.

Bank Robbed; President Kidnaped.

Havana, Ark., Feb. 26.—Two masked men entered this little village, kidnaped the president of the bank, Dr. J. H. Mitchell, blew open the safe, which contained a sum of money estimated at \$12,000 and escaped into the mountains to the west.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His first to be made brought out these little size colored tablets.

These pleasant little tablets do the good that calomel does but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel is sometimes plus a nausea with the gums. So do strong liquids.

It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place. Host headaches, "dizziness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "bloated" and "heavy." Note how they "clear" clouded brain and how they perk up the spirits. At 10c and 25c per box. All druggists.

Eagle Soars Off With Pet Dog.
Hastings, N. Y., Feb. 26—Tiny, a full-blooded Pomeranian dog owned by Frank P. Wupperman, nearly fell a victim of high living. As it was he broke a leg. Tiny and a maid were exercising on the roof of the Wupperman residence when an eagle swooped down and seized the dog in its talons. The gray bird soared off with its wriggling prey, but it soon lost its grip and dropped Tiny on the lawn in front of the house. The pet sustained a broken leg.
